AMBER OAKS RANCH

THRALL, TX

THE AMBER OAKS DIFFERENCE

PASTURED CHICKEN

- ORGANIC FEED
- NO ANTIBIOTICS
- NO HORMONES

In addition to organic feed, our chickens hunt, peck, scratch and eat freely day and night from a salad-bar of grasses, legumes, and insects.

Welcome to chicken the way it is supposed to taste.

FARM FRESH EGGS

- FREE RANGE
- ALL NATURAL
- NO HORMONES

All chickens are free range and truly pastured!

Flocks are moved to fresh, chemical-free grass daily, and fed non-GMO grain.

PASTURED PORK

- HUMANELY RAISED
- NO ANTIBIOTICS
- NO HORMONES

Our pigs live continuously on chemical and pesticide free pasture rooting for forage.

They have access to shade, shelter, and wallows as well as vegetation, enjoying a healthy and stimulating environment year round.

GRASS FED BEEF

- GRASS FINISHED
- NO HORMONES
- NO ANTIBIOTICS

Our cows are born here on the ranch and are rotated through pesticide and chemical-free grassy pastures every day.

Our calves eat only grasses and legumes and receive no drugs whatsoever (antibiotics, vaccines, wormers, etc.) thus ensuring you receive the most natural, healthy meat possible.
